

PHOTOVOLTAIC MODULE LIMITED WARRANTY

Schüco MPE xxx PS 092 Module Series

THIS WARRANTY IS PROVIDED BY SCHÜCO USA, L.P. ("SCHÜCO") ONLY TO THE FIRST CONSUMER PURCHASER ("SCHÜCO CUSTOMER").

1. LIMITED PRODUCT WARRANTY

Schüco warrants that for **five (5) years** from the date of delivery, the Schüco crystalline photovoltaic modules (each a "PV Module") shall be **free from defects in materials and workmanship** under normal, application, installation, use and service conditions. In the event that the PV Module is found to have material or fabrication defects within the specified warranty period from date of delivery to the Schüco Customer, Schüco shall, at its sole option, repair or replace the defective component, or issue the Schüco Customer a refund of the purchase price. The repair, replacement or refund shall be sole and exclusive remedy provided under this Limited Product Warranty and shall not extend beyond the five (5) year period set forth herein. This limited product warranty does not warrant a specific power output of the PV Module, which shall be exclusively covered under Section 2 hereinafter (Limited Power Warranty). The supply of a replacement PV Module shall not serve to extend this warranty.

2. LIMITED POWER WARRANTY

Schüco warrants a module output for the PV module of at least **90% of the nominal power output (as set forth in Section 3 below)** within **twelve (12) years** from the date of delivery to the Schüco customer.

In addition, Schüco warrants a module output for the PV module of at least **80% of the nominal power output within twenty-five (25)** from the date of delivery to the Schüco customer.

Should it be shown, on the basis of an appropriate performance test provided by the Schüco Customer and recognized by Schüco that the PV Module does not meet the aforesaid minimum output within the applicable warranty period, Schüco will, at its sole option, repair or replace the defective component, or issue the Schüco Customer a refund of the purchase price. The power output shall be measured under STC (Standard Test Conditions: cell temperature of 25 degree Celsius, radiation of 1000 W/m², spectrum AM 1.5) using a performance test system and institute accepted by Schüco and Schüco. The supply of a replacement PV Module shall not serve to extend this warranty.

3. WARRANTED MODULES AND NOMINAL POWER OUTPUT

The Limited Product Warranty and Limited Power Warranty are valid for all Schüco crystalline PV modules listed below. Module types not contained in this list are not covered under these warranties.

- Schüco MPE 220 PS 092 --> Nominal Power: 220 Wp
- Schüco MPE 225 PS 092 --> Nominal Power: 225 Wp

No warranties are valid unless and until the Schüco Customer has made full payment under the original sales agreement and all addenda thereto.
